

God's Protection

Scripture

I am with you, and I will protect you everywhere you go. *Genesis 28:15a (ERV)*

Devotional

God gives His creation the knowledge to care for their babies. Mom and dad eagles build their nests at the top of the tallest trees. An eagle's nest is huge—big enough that a boy or girl could easily curl up in it. The eagle makes its nest very deep at first to protect its babies from weather and animals. As the young eagles grow, the nest is filled in so they can gradually be higher and finally be on the same level as the tree branches. Then they can hop out and learn to fly.

God protects us, His children, in many ways. He provides people who love and care for us. He provides our daily food and homes in which to live. God provided His Word, the Bible, so we could learn about Him.

Prayer

Dear God,
We are grateful for Your loving kindness toward Your children. Please continue to provide food, homes, church, and people who love and care for us. Thank You for the Bible so that we can read to learn more about You. In Jesus' name, Amen.
